REPORT OF SCHOOL BOARD

For the Year Ending February 15, 1914.

On the above date all the schools were in session, therefore much of the information usually reported from the registers is not available.

It gives us great pleasure, however, to say that the average work of the schools of the district has been of a very high order, —not perfect as we could wish in all instances, it is true,—but from a decided majority of the school terms no word of complaint has reached us, but reports of approval have been frequent. This is an accurate gauge of that public sentiment which has aided our efficient teachers in making a greater degree of success than has been attained before in many years.
